

# IRIS IR-A

Iris is the last short-wave infrared heater designed by MO-EL. It combines its solid Italian manufacturing with low consume and contemporary design.

Iris is protected against dust and rain and can be installed indoor or outdoor as well. It focuses its heat only where it is really necessary.

The versions 866NRC and 867NRC are equipped with remote control for an easier control of the ON/OFF setting. One remote control can activate various appliances, in fact it operates by infrared inputs.

Made to last over time, Iris is made of nylon and aluminum and

can be completely recycled at the end of its life cycle.

Easy maintenance: the lamp is replaceable; it is not necessary to completely disassemble the unit. Watch the tutorial on MO-EL's Youtube channel.

3 inclination settings for an easier installation

Iris is extremely light and it is suitable to be installed with the adjustable 1.5 mt retractable arm (models 4467 and 4469). Iris is equipped with wall bracket (coming with the unit) but is also suitable for pole or sun umbrella installation if combined with pole bracket 868p (pole) or 868u (umbrella).

## Benefits

IP65

From 1200 W up to 1800 W of power

Available with remote control (866NRC and 867NRC)

With adaptable wall bracket

White frozen lamp – quartz and tungsten wire

Lamp 5000 h life time

No rust – made in aluminum and nylon PA enhanced with fiber glass

Effective indoor and outdoor

Iris is protected against dust and rain, meeting the IP65 standard. It can be installed in any environment. Iris is suitable for wall, pole or parasol positioning.

Totally silent

## Accessories

Hanging chains and wall brackets included

Item 868P: Optional Bracket for Pole installation

Item 868U: Optional Bracket for Sun umbrella
